

March 17, 2020

Dear QualCast Customers,

With the recent announcement of a national emergency regarding the COVID19 virus, QualCast has taken steps to ensure that we are able to remain open and serve our customers. Currently we are receiving, packing and shipping orders as well as replenishing our stock.

We know that there are a lot of questions surrounding business during this time, but getting quality valve train parts from QualCast should not be one.

Please do not hesitate to contact us directly at 615-777-3863, 888-432-4552 or your local sales representative if you have any questions.

Thank you very much for your continued support.

The QualCast Team
